## RACE VEHICLES

All competing race vehicles must be located in the Paddock Area and unregistered or unroadworthy vehicles must not be driven in the public area. Any breaches will result in the competitor being excluded from the meeting.

## GRID POSITIONS

Grid positions will be as per category sporting regulations, however if grid allocations are not specified grid positions shall be determined on qualifying times for the first scratch race for each category and thereafter all grids shall be "progressive" with the finishing order from the preceding event being used to determine the starting order.

## START AND RE-STARTING

The start of all races, standing or rolling, shall be signalled by lights and any handicap event will be started with the National Flag. Assistance in re-starting a car during any event may be obtained only from officials at the meeting, and then only if such officials are willing and able to do so safely and without prejudice to their duties.

## TIMING

Cars competing in the events will be timed by an electronic timing device. All competitors at this meeting are required to have an operating Dorian Data1 transmitter fitted to their vehicles to enable their lap times to be recorded. The Dorian transmitter number must be written on the entry form. Any competitor requiring a Timing device can be purchased for hire through Ian Leech at Timetronics on (03) 5443 6073.

## RESULTS/AWARDS

The winner of each event shall be the vehicle that completes the event in the fastest race time. Trophies will be awarded to the first three placegetters in category, dependant on the number of entries received for the event. Points will be allocated in each race in order of finishing, with the aggregate of these points being the meeting points accumulated over the duration of the event. Awards will be allocated according to the results of the meeting points in each category.
